Selected Project Profiles

January 10th, 2010

F&R Worldwide

Representative projects: S.C. Petrom SA

Health & Safety Supervision for Well Head Rehabilitation – various locations

- F&R Worldwide is providing health & safety supervision and training for the rehabilitation and modernization of more than 5,000 well heads all over the country.
- Activities include evaluating the health and safety levels of area work crews, and the development and delivery of training at the well head work sites.
- The goal is to increase the workers' knowledge of site health and safety risks and to train site workers to mitigate those risks.
- **Scope:** Health & Safety Supervision and Training
- **Facility Type:** Petroleum

Representative projects: Confidential

Alcohol Tests– various locations

- Prior to working with F & R Worldwide, some of our clients experienced work site accidents/incidents that were related to alcohol consumption.
- F&R Worldwide has provided confidential Alcohol Tests within specific client locations to determine if alcohol consumption still represents a global problem.
- Activities include visiting all the Field Clusters at random and testing site workers from those locations.
- The goal of the work is to support each client's No Alcohol Policy.
- **Scope:** Alcohol Tests
- **Facility Type:** Petroleum

Representative projects: S.C. Petrom SA

QA/QC Supervision – Geamana Project

- F&R Worldwide is providing QA/QC supervision and training for the rehabilitation and modernization of Parc 1 Geamana, Zemes Field Cluster.
- Activities include supervising the work carried out by contractors and supporting the construction crew.
- The goal is to increase the quality of work performed by contractors in Petrom locations.
- **Scope:** QA/QC Supervision – Geamana Project
- **Facility Type:** Petroleum

Representative projects: S.C. Petrom SA

HSE Construction Supervision – Hurezani Project

- F&R Worldwide is providing health & safety supervision for the construction of a compression station.
- Activities include coordinating the construction HSE activities, evaluating the activities performed and supporting the client and the main contractor.
- The goal of the work is to increase the workers' knowledge of site health and safety risks and to train site workers to mitigate those risks.
- **Scope: HSE construction** Supervision – Hurezani Project
- **Facility Type:** Petroleum
